We access this townhouse by a private street, located on the corner of the urbanization, enjoying greater independence and tranquility. The property has a double entrance which offers security and independence. The first entrance, through an exterior gate with enough space until you reach the main door. The second allows us to enter the property directly into the hall.

Facing south west, we have guaranteed spaces with light and fantastic views open to a small sea of olive trees, reminiscent of the infinite Jienenses lands.

On the first floor, we have a large bright living room with access to the terrace. A very comfortable space where you can enjoy sunny and warm days from the outside. We also find an independent kitchen in perfect condition and with quality furniture. From here, you access a spacious laundry room with exterior light through a wall with glass. Finally, we have a toilet before starting the climb up the stairs to the second floor.

On the way to the second floor, we have a wall with high ceilings that invites decoration and creativity, which give character and personality to this house. Upstairs, we have a room that gives way to the four bedrooms and a large independent bathroom. The master bedroom has wonderful views open to the countryside and also has a custom-made rustic style wardrobe. The second bedroom consists of a large wardrobe that occupies all of it. A very useful space that will allow you to have the house tidy and enjoy a space for household chores. From this room we can access a small balcony, a perfect place to enjoy a book and fantastic views. The bathroom, with wooden furniture, has two sinks and a bathtub. Continuing on the second floor we have two double rooms facing north, one of them currently with a single bed for guests and another, which is used in these moments of storage.

Finally, we have a private garage and storage room to keep your car and belongings safe and stored.

Find tranquility, comfort and security in this semi-detached house of rustic character and excellent state of conservation. You will save time and money since you do not need to incur additional investments in reforms.
